PROFILE OVERVIEW

Results-driven Computer Science Engineering student (Batch 2026, CGPA 8.34) with strong proficiency in Full Stack Development (MERN) and Data Structures Algorithms (C++). Experience in engineering scalable, fault-tolerant web applications with real-time capabilities. Seeking to leverage technical proficiency in System Architecture to deliver high-impact software solutions.

SKILLS & COMPETENCIES

Technical Languages: C++, Python, Java, HTML, CSS, JavaScript, TypeScript, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Socket.io, Tailwind CSS, Pandas

Cloud & DevOps: MongoDB (Atlas), MySQL, AWS (Basics), RabbitMQ, Docker, CI/CD

Developer Tools: Git, GitHub, VS Code, Postman, Redux, Excel

Behavioral Skills: Leadership, Team Collaboration, Strategic Planning, Adaptability, Public Speaking

EDUCATION

Vellore Institute of Technology, Bhopal

B.Tech Major in Computer Science and Engineering

Expected May 2026

CGPA: 8.34/10

KEY PROJECTS

ZenChat | React, Node.js, Socket.io, TypeScript,  

Dec 2025

- Deployed full-stack app (zenchat.online) using Node.js/Express REST APIs for efficient authentication and MongoDB data retrieval.
- Engineered real-time bi-directional messaging using Socket.io (WebSockets), ensuring instant delivery without page refreshes.
- Implemented secure JWT authentication for session management, enhancing privacy and reducing security vulnerabilities by 40%.
- Engineered fault-tolerant backend with self-healing RabbitMQ consumers to eliminate cold-starts, ensuring 99.9% uptime.
- Resolved complex CORS issues to securely bridge Vercel-hosted Frontend with Render-hosted Backend.

Agro-Aid | HTML, CSS, JavaScript, Machine Learning  

July 2024 – Sep 2024

- Architected responsive, mobile-first interface using HTML5, CSS3, and JavaScript as lead Frontend Developer.
- Integrated ML backend via RESTful APIs, reducing data latency by 30% for real-time crop predictions.
- Developed ML models achieving 95%+ accuracy for crop yield prediction and early disease detection.
- Engineered weather forecasting module with 80%+ precision to optimize irrigation and fertilization schedules.
- Integrated Google Translate Widget for real-time multi-language support, enhancing accessibility for regional farmers.

POSITIONS OF RESPONSIBILITY

Event Management Core Member

2024 – 2025

Marathi Club, VIT Bhopal University

- Orchestrated the annual Ganpati Festival for 500+ students, managing all logistics and operations.
- Co-led end-to-end event operations, coordinating performances and vendors to ensure seamless execution.
- Increased event budget by 15% through successful sponsorship acquisition and financial planning.

CERTIFICATIONS

DSA in C++: Coding Ninja (Excellence, >90%) 

Full Stack [MERN]: SmartBridge (Hands-on project completion) 

Generative AI Using Watsonx: IBM Certified 

LANGUAGES & INTERESTS

Languages: English (Professional), Hindi (Native), Marathi (Native)

Interests: Full Stack, System Design, Machine Learning, Open Source Contribution
