PROFILE OVERVIEW

Results-driven Computer Science Engineering student (Batch 2026, CGPA 8.34) with strong proficiency in Full Stack Development (MERN) and Data Structures Algorithms (C++). Experience in engineering scalable, fault-tolerant web applications with real-time capabilities. Seeking to leverage technical proficiency in System Architecture to deliver high-impact software solutions.

SKILLS & COMPETENCIES

Languages: C++ (STL), Python, Java, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Frameworks: React.js, Node.js, Express.js, Socket.io, Redux Toolkit, Tailwind CSS, Pandas
Cloud & DevOps: MongoDB, MySQL, AWS (EC2/S3), RabbitMQ, Docker, Git, GitHub Actions
CS Fundamentals: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks
Developer Tools: VS Code, Postman, Vercel, Render, Linux/Unix

EDUCATION

Vellore Institute of Technology, Bhopal Expected May 2026
B.Tech Major in Computer Science and Engineering CGPA: 8.34/10

KEY PROJECTS

ZenChat | React, Node.js, Socket.io, TypeScript, Dec 2025
• Deployed full-stack app (zenchat.online) using Node.js/Express REST APIs for efficient authentication and MongoDB data retrieval.
• Engineered real-time bi-directional messaging using Socket.io (WebSockets), ensuring instant delivery without page refreshes.
• Implemented secure JWT authentication for session management, enhancing privacy and reducing security vulnerabilities by 40%.
• Constructed fault-tolerant backend with self-healing RabbitMQ consumers to eliminate cold-starts, ensuring 99.9% uptime.
• Resolved complex CORS issues to securely bridge Vercel-hosted Frontend with Render-hosted Backend.

Agro-Aid | HTML, CSS, JavaScript, Machine Learning, July 2024 – Sep 2024
• Architected responsive, mobile-first interface using HTML5, CSS3, and JavaScript as lead Frontend Developer.
• Integrated ML backend via RESTful APIs, reducing data latency by 30% for real-time crop predictions.
• Developed ML models achieving 95%+ accuracy for crop yield prediction and early disease detection.
• Designed weather forecasting module with 80%+ precision to optimize irrigation and fertilization schedules.
• Integrated Google Translate Widget for real-time multi-language support, enhancing accessibility for regional farmers.

LEADERSHIP & VOLUNTEERING

Social Volunteer (NGO) | Foundation for Rural & Agri. Dev. Dec 2025
• Led organic farming and vermicompost awareness campaigns for farmers across five Jalna villages.

Event Core Member | Marathi Club, VIT Bhopal 2024 – 2025
• Managed logistics and vendors for the annual Ganpati Festival (500+ attendees), securing a 15% surplus.

CERTIFICATIONS

DSA in C++: Coding Ninja (Excellence, >90%)
Full Stack [MERN]: SmartBridge (Hands-on project completion)
Generative AI Using Watsonx: IBM Certified

LANGUAGES & INTERESTS

Languages: English (Professional), Hindi (Native), Marathi (Native)
Interests: Full Stack, System Design, Machine Learning, Open Source Contribution
